REFERENCE: HTA/SI/R-10-58 Electronics sites of possible interest to ED/OSI as reported in the 4000 series mission coverage summaries.

25X1

[redacted] WAC 328

"Probable electronic installation w/ elaborate; comparatively short, antenna array."

This installation is located at SARY-AGACH, $41^{\circ}28'N$ $69^{\circ}10'E$, just north of TASHKENT. The installation is being analyzed under CIA requirement RR/HTA/E/R84/57, a study of communications facilities within a 40 KM radius of TASHKENT.

25X1

2. [redacted] WAC 246

"Possible electronic or guided missile installation"

This installation is a probable microwave relay station located at $44^{\circ}31'N$, $66^{\circ}15'E$, and is being covered in CIA requirement RR/HTA/E/R84/58.

25X1

3. [redacted] WAC 161

"Possible microwave relay station"

This installation is located 40 nm SW of BILYK at $52^{\circ}05'N$ $84^{\circ}28'E$. A tower cannot be identified at this site and the general appearance does not indicate an electronic site.

25X1

4. [redacted] WAC 244

"Probable radar and communications center,...."

This installation is located on the south eastern shore of Lake Balkhash at $46^{\circ}20'E$, $78^{\circ}29'E$. It is most probably a small storage area for small arms ammunition or explosives and not a radar and communications center.

25X1

5. [redacted] WAC 238

[redacted] isolated, north of KARAGANDA;....."

No electronic sites can be identified in this area. The round objects described in the MCS are underground water tanks serving nearby installations.

25X1

6. [redacted] WAC 238

"KAMAGUMA,....., electronic facility."

This installation is a radio station under construction. ~~USA~~
 Brief, B-97-57, dated 31 December 1957, is a description and analysis
 of this installation.

25X1

7. [redacted] WAC 238

"U/I round objects; pairs are equally spaced."

These objects appear to be agricultural or archeological patterns
 and are not associated with electronics.

25X1

8. [redacted] WAC 246

"Possible electronic site; cross T scarred earth, largest
 scar approximately 3,800', shortest 2,100'."

This installation is located 65 nm NW of KZYL-ORDA. It is
 believed to be tied in with the TYURA-TAM missile test range, and
 is being described in the report on that installation.
